Town Leaders

Connecticut Water is pleased to announce the availability of scholarships for high school students through two water industry professional associations, Connecticut Water Works Association (CWWA) and New England Chapter of National Association of Water Companies (NENAWC). A summary of the scholarships and application criteria and deadlines is attached.

As water professionals who are members of these organizations, Connecticut Water employees are passionate about our work in the water supply field. We know that having clean, safe water truly makes a difference in lives of people and our communities. We hope that students will consider the many areas of study they could pursue that would support the profession.

Connecticut Water is eager for students in the communities we serve to apply for these scholarships and have an opportunity to receive some financial support for their academic pursuits.

We are pleased to make this information available to you and hope your college bound students will consider applying. We have enclosed copies of the application materials and also provided a link to these scholarship opportunities on the Connecticut Water Company Web site at www.ctwater.com. Please post this news to your town website if possible. We have also sent this information to school superintendents.

Please feel free to contact me at 860-664-6055 or my assistant, Sarah Yale at 860-664-6013, if you have any questions or need additional information. Don't hesitate to email me at mwestbrook@ctwater.com if I can be of assistance. Thank you

Sincerely yours,

A handwritten signature in black ink, appearing to read "Maureen".
